

QB50 - Legal

Elias Aboutanios

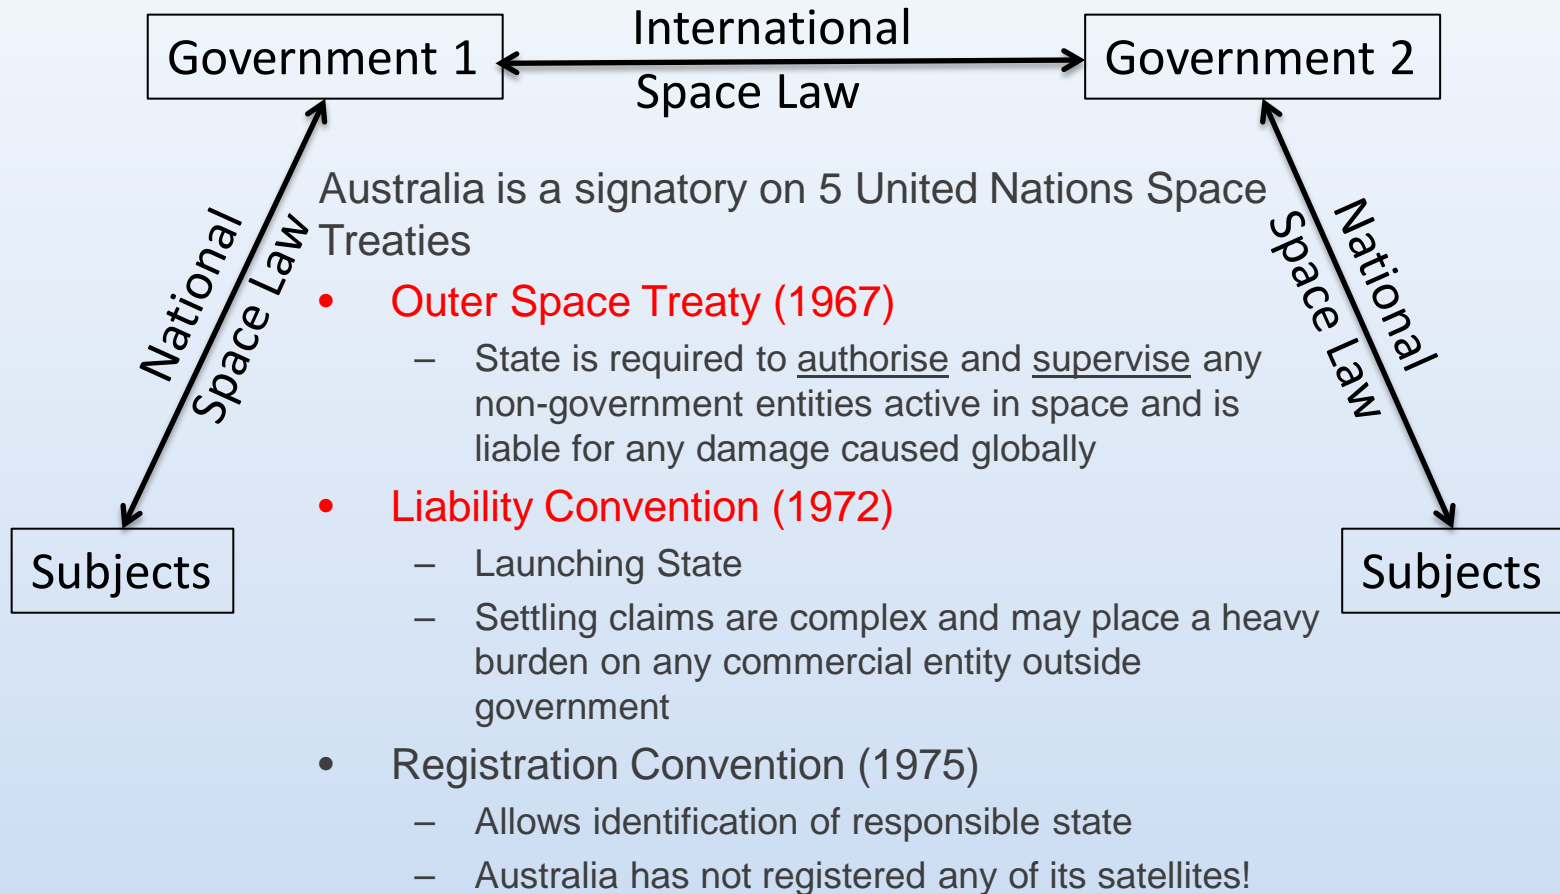

Never Stand Still

Faculty of Engineering

Australian Centre for Space Engineering Research (ACSER)

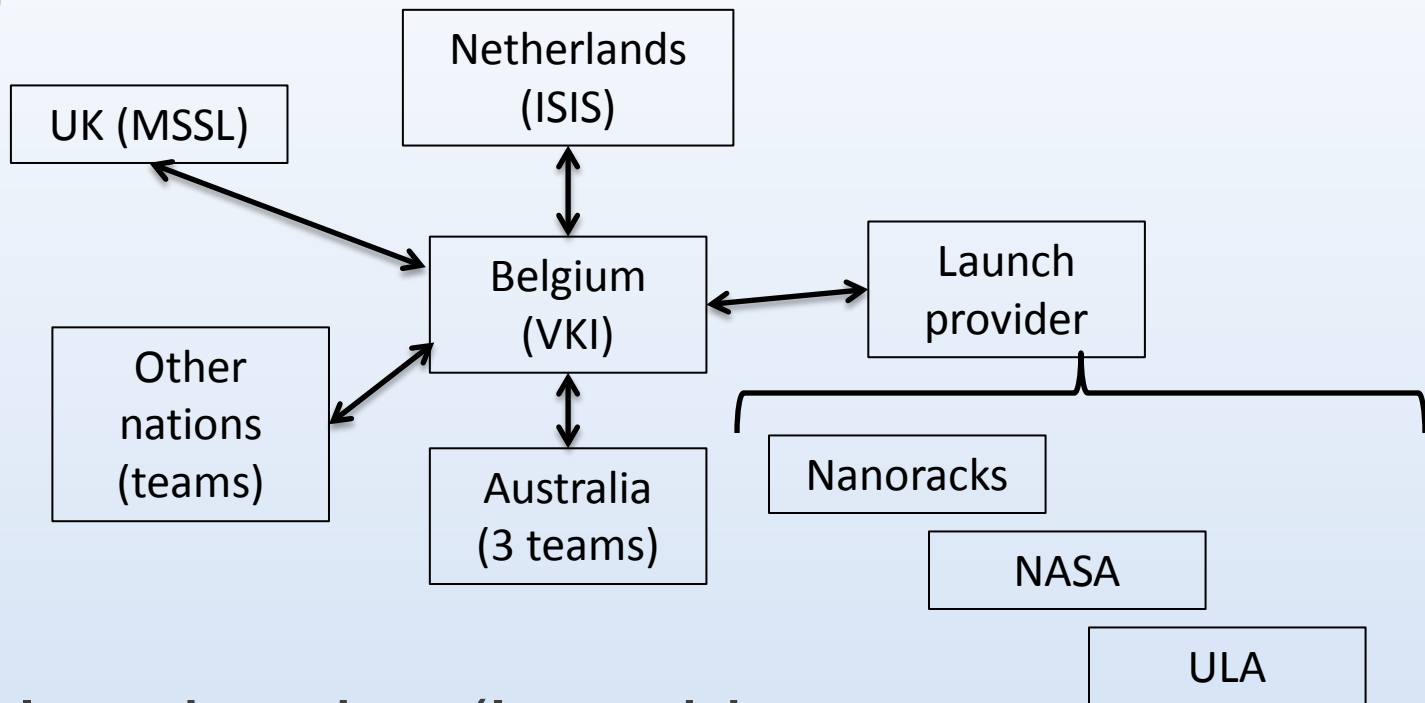

The Legal Context

Australian Laws and Regulations

- Need to obtain launch license
 - Register as a recognised educational institution with SLASO (Space Licensing and Safety Office)
 - Apply for launch license (at substantially reduced cost)
 - Insurance: \$750M or MPL (which ever is lesser)
- ITAR
 - Satellite is Australian hardware
 - Bound by ITAR
 - Obtain waiver from VKI for sharing data with banned countries

QB50

- Complex situation (launching states, registration, liability)
- Potential for significant duplication of launch insurance
