

MELBOURNE SPACE PROGRAM

THE UNIVERSITY OF
MELBOURNE

WHO WE ARE

And why you should care...

The Melbourne Space Program comprises of a diverse group of passionate individuals united in their work to strengthen the Australian aerospace industry with a focus on education, experimentation and community.

WHAT WE DO

And what makes us different

Student-Run

Allowing students the freedom to find their own way teaches confidence and independence of thought

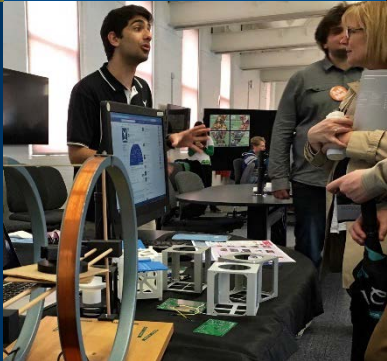

Creating Contacts

Giving our members the chance to work with experts in the field and build connections

Learning by doing

Giving students the hands on experience to help them excel in their chosen fields.

Access to Resources

By gathering information and people, MSP gives its members access to resources they could not otherwise find

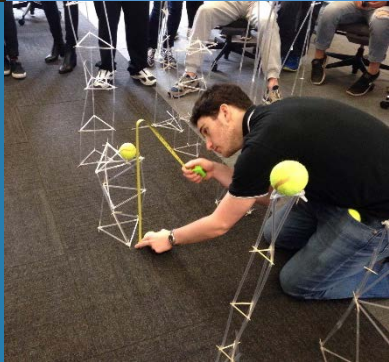

Multiple Disciplines

Our members have to work outside of their degree defined boundaries to solve problems in a real world setting

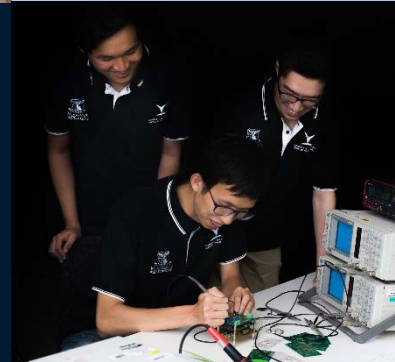

Public Engagement

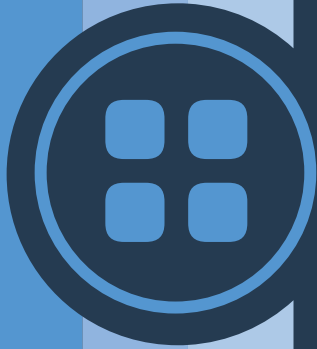

We are working to create a community of like-minded amateur space enthusiasts with the hope of fostering interest in the space sector

Great Experience

Building a satellite is cool!

WHAT WE'VE LEARNED

And what the future holds

“Doing big things is hard...”

Paul Ryan - 2017

Challenges extend beyond engineering

Overseas
Contractors

Grants and
Funding

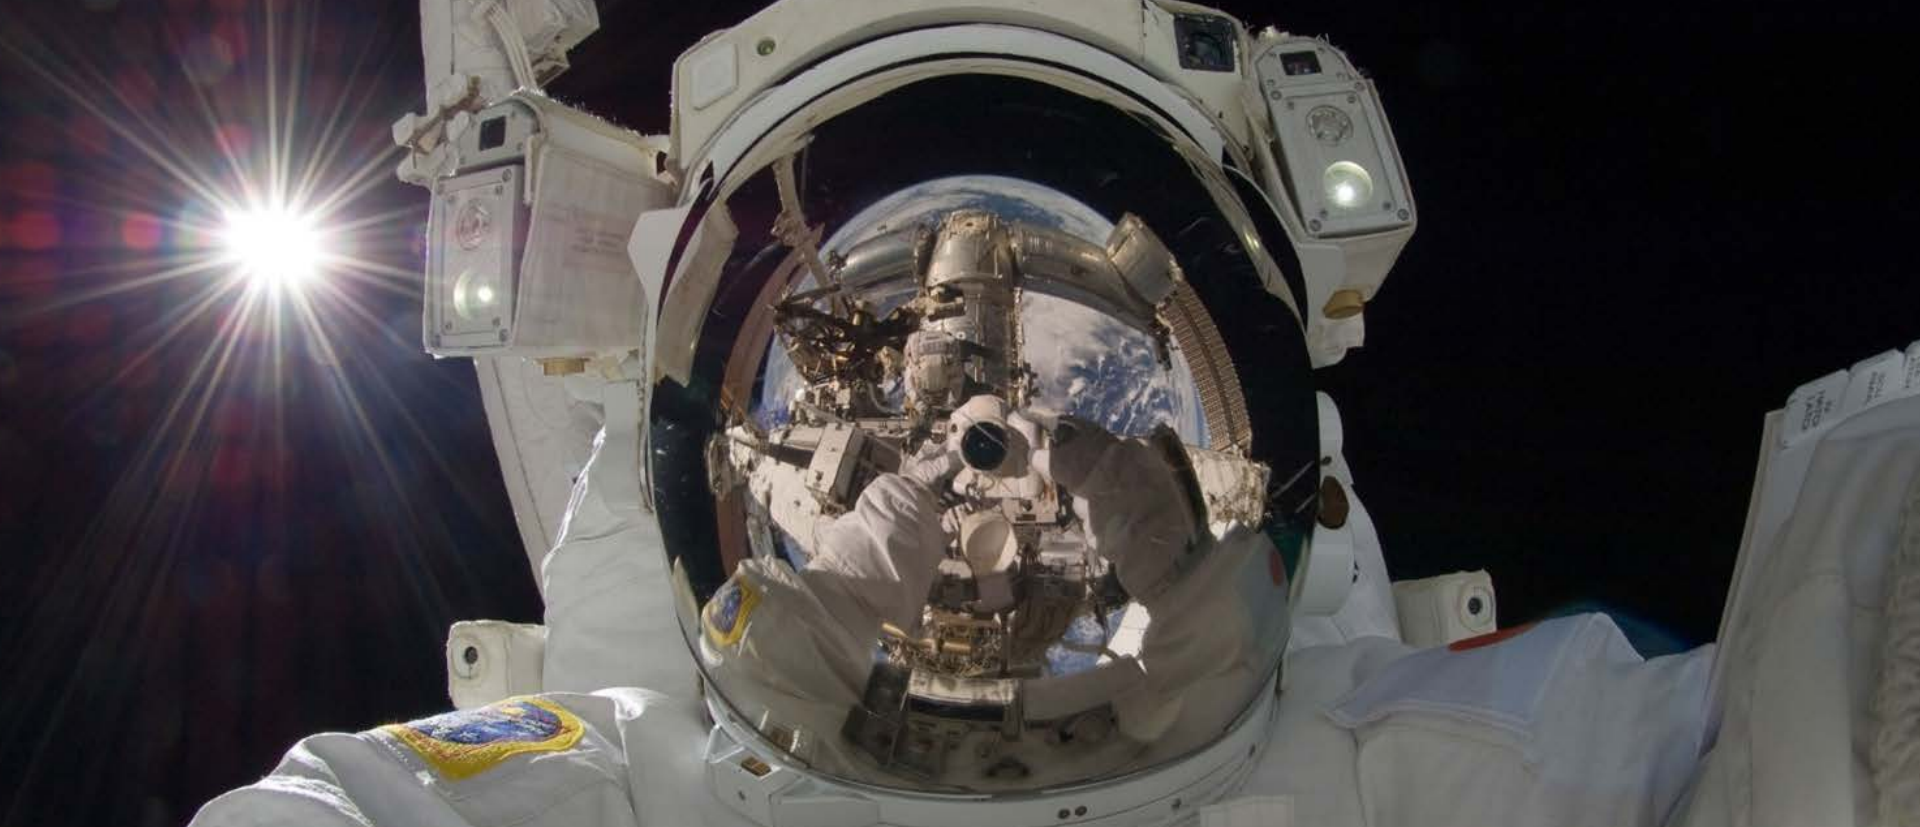

Staff Turnover

Company Structure

Legislation
