

Australia's
Global
University

4th Off Earth Mining Forum

21 - 22 November 2019

SPONSORSHIP OPPORTUNITIES

Overview

The moon is sexy again. Multiple national agencies and private firms are planning missions. Both NASA and ESA are planning lunar-outposts or space-gateways, with support by major industry players such as Airbus, Boeing and Lockheed. The time frame for many of these plans is within the next decade. These plans will soon open doors for resources sourced from the moon or asteroids to be delivered in earth or lunar orbit or to the Martian surface.

With its immense experience in terrestrial resource infrastructure and extraction, Australia is well placed to take a leading role in space resource extraction and processing as well as become a leader in advanced in-space manufacturing, such as additive manufacturing or large-scale 3D printing.

In 2019 the Australian Centre for Space Engineering Research and the UNSW School of Minerals and Energy Resources Engineering will jointly host the fourth biannual Off-Earth Mining Forum (OEMF): “Space Resource Utilisation for the NewSpace Economy”. In the years since this event was first realised (2013), the research and industrial backdrop has changed dramatically. Here at UNSW Sydney we have been developing our capabilities in mission development and SRU research in conjunction with NASA and our industrial partners, enabling us to make substantial contributions to the burgeoning space economy that is now only a few years away. Those efforts are currently focussed in the [Wilde](#) project.

The forum will host speakers from across the spectrum of space-economy and space-based-resourcing issues, with a strong focus on the following topics for 2019:

- Autonomous Navigation of Spacecraft Utilising Simultaneous Localisation and Mapping
- Autonomous mission planning for exploration, prospecting and site-selection
- Geophysics: Determining geomechanics and resource endowment for prospecting and mining
- Modelling Prospective Water Resources of Buried Ice Deposits
- Robotics and System Design for space resource utilisation
- Novel uses and concepts for space resource utilisation
- Economic studies: timelines, market conditions and technologies
- Global and National Legal Frameworks for non-terrestrial commercial operations
- Environmental Considerations

We will host delegates from active domestic and international research organisations and governments, start-ups and SMEs working specifically in this field, with keynotes from major industry players from around the globe.

Conference Chairs

Prof. Andrew Dempster, Australian Centre for Space Engineering Research, UNSW Sydney

Prof. Serkan Saydam, School of School of Minerals and Energy Resources Engineering, UNSW Sydney

Sponsorship Packages

PLATINUM
*Forum
Supporter*
(One available)
\$12,000*

GOLD
*Technical Session
or Panel Supporter*
(Several available)
\$6,000*

SILVER
*Meal break
Supporter*
(Two available)
\$3,000*

BRONZE
Supporter
(Several available)
\$1,500*

GALA DINNER
*Evening Function
Supporter*
(One available)
\$4,000*

OUTREACH
*Public Lecture
Supporter*
(One available)
\$6,000*

Sponsorship Packages

PLATINUM

Forum Supporter (One available)

\$12,000*

Entitlements:

- Naming rights to the Forum
- Opportunity to give a plenary presentation
- Acknowledgement in all Forum publicity
- Prominent logo placement on all promotional material
- One page full colour advertisement in the Forum Program
- Logo and hyperlink prominently featured on Forum website
- Opportunity to provide promotional material to event attendees
- Opportunity to display company signage at event
- Acknowledgement during official opening and closing sessions throughout the Forum.
- 4 complimentary full-registrations

GOLD

*Technical Session Supporter
(Several available)*

\$6,000*

Entitlements:

- Naming rights to the sponsored session
- Opportunity to introduce and/or chair the sponsored session
- Acknowledgement in all Forum publicity
- Logo placement on all promotional material
- One half-page full colour advertisement in the Forum Program
- Logo and hyperlink featured on Forum website.
- Opportunity to provide promotional material to event attendees
- Opportunity to display company signage at event
- Acknowledgement during official opening and closing sessions during the Forum
- 3 complimentary full-registrations

**GST will apply to all sponsorship packages*

Sponsorship Packages

SILVER

*Meal Break Supporter
(Two available)*

\$3,000*

Entitlements:

- Acknowledgement in all Forum publicity
- Logo placement on all promotional material
- One page full colour advertisement in the Forum Program
- Logo and hyperlink featured on Forum website
- Opportunity to give a brief address prior to the sponsored break
- Opportunity to provide promotional material to event attendees
- Opportunity to display company signage at event
- Acknowledgement during official opening and closing sessions
- 2 complimentary full-registrations

BRONZE

*Event Supporter
(Several available)*

\$1,500*

Entitlements:

- Acknowledgement in all Forum publicity
- Logo placement on all promotional material
- One quarter-page full colour advertisement in the Forum Program
- Logo and hyperlink featured on Forum website.
- Opportunity to provide promotional material to event attendees
- Opportunity to display company signage at event
- Acknowledgement during official opening and closing sessions during the Forum
- 1 complimentary full-registration

**GST will apply to all sponsorship packages*

Sponsorship Packages

GALA DINNER

Evening Function Supporter

(One available)

\$4,000*

Entitlements:

- Naming rights to the Forum Dinner
- Opportunity to give a brief presentation at the dinner
- Opportunity to display company promotional material at the dinner venue
- Opportunity to display company promotional material at the Forum venue
- Acknowledgement in all Forum publicity
- Logo placement on all promotional material
- One half-page full colour advertisement in the Forum Program
- Logo and hyperlink featured on Forum website
- Opportunity to provide promotional material to event attendees
- Acknowledgement during official opening and closing sessions during the Forum
- Up to 6 complimentary full-registrations

OUTREACH

Public Lecture Supporter (One available)

\$6,000*

Entitlements:

- Acknowledgement in all publicity for the Lecture sponsored
- Logo and hyperlink featured on Forum website
- Opportunity to give brief introductory remarks during the opening proceedings of the lecture
- Opportunity to display company signage on the stage of the theatre during the sponsored session
- Company signage displayed in the theatre and foyer
- Prominent logo display on the opening and closing slides
- Acknowledgement during official opening and closing remarks of the lecture
- Reserved seating for any number of guests

**GST will apply to all sponsorship packages*

For more information

All levels of sponsorship are negotiable and we would be happy to discuss your needs. Please get in touch with Prof Andrew Dempster via the details below.
